It is not growing like a tree
 In bulk, doth make Man better be;
 Or standing long an oak, three hundred year,
 To fall a log at last, dry, bald, and sere;
 A lily of a day
 Is fairer far in May
 Although it fall and die that night--
 It was the plant and flower of light.
 In small proportions we just genuine beauties see;
 And in short measures life may perfect be.

Ben Jonson (1573-1637)
